Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	I am an Employee	I'm trying to apply for leave through ServiceNow.	But I don't have a simple way to submit my leave request and track its approval status.	Because the leave process is manual and takes more time.	Frustrated and uncertain about whether my leave is approved.
PS-2	I am a Manager	I'm trying to review and approve employee leave requests quickly.	But I don't receive instant notifications and it is difficult to manage multiple requests manually.	Because there is no automated approval workflow.	Overloaded and delayed in making approval decisions.
