THINKS • "I hope my manager approves my leave on time." • "The process should be simple and easy to use." • "I should receive updates without asking my manager."	
 DOES • Logs in to ServiceNow. • Fills in leave type, start date, and end date. • Submits the leave request and waits for approval. • Checks leave request status.  PAIN POINTS • Manual leave application process. • Delay in manager approvals. • No real-time status updates. • Incorrect date selection can cause errors.	 GOALS (NEEDS) • Apply for leave online. • Receive quick manager approval. • Get automatic approval/rejection notifications. • Ensure the end date is not earlier than the start date. • Track leave request status anytime.
